### Easy cover assembly

Thanks to the use of a semi-circular cover slot, the installation is trouble-free, and disassembly does not damage the cover.

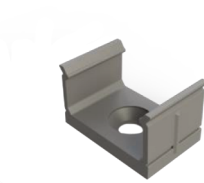

### Heat dissipation

The ribbed base provides much more efficient heat dissipation than in traditional profiles.

### Paint

In addition to anodized profiles (silver, inox stainless steel, black), in the case of wholesale orders, it is possible to order powder coated profiles in any color from the RAL palette.

### Moutage brackets

The holder is an ideal solution for mounting LED profiles in kitchen cabinets, shelves, etc. Provides strong and stable fixing of the profile to the ground.
